

profit vs sales - gauge chart

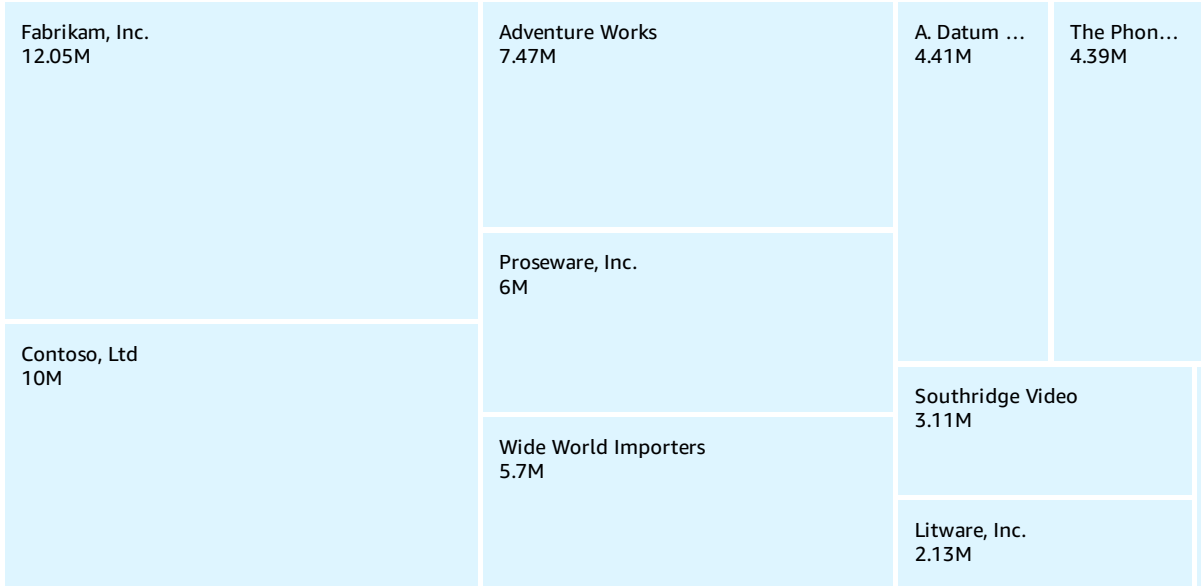

histogram - distribution of 1 measure (sales in this case)

Interpretation - 3K orders have a sales value between 1400 USD and 2800 USD

A filter has been added to show only orders less than 14000 USD sales value

tree map - the size of the rectangles represent the volume of measure (sales in this case)

Group By: Manufacturer
Size: Sales (Sum)

scatter plot - correlation between 2 measures (cost of sales vs sales)

SHOWING UP TO 2500 DATA POINTS
